SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier
Trade name or designation of the mixture: Universal Blue - Light, Medium & Heavy Grades
Registration number: -
Synonyms: None.
SDS number: 2
Issue date: 22-August-2011
Version number: 04
Revision date: 21-March-2014
Supersedes date: 23-July-2013

1.2. Relevant identified uses of the substance or mixture and uses advised against
Identified uses: Non-Setting and Non-Hardening Gasketing Compound.
Uses advised against: None known.

1.3. Details of the supplier of the safety data sheet
Manufacturer: Hylomar Ltd.
Address: Hylo House, Cale Lane, New Springs, Wigan, Greater Manchester, UK, WN2 1JT
Telephone number: +44(0)1942 617000
E-mail address: info@hylomar.co.uk
Contact person: Technical Department

1.4. Emergency telephone number
Access code: 333544

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture
The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Directive 67/548/EEC or 1999/45/EC as amended
Classification: Carc. Cat. 3; R40, Xn; R22-48/20, Xi; R36/38
The full text for all R-phrases is displayed in section 16.

Classification according to Regulation (EC) No 1272/2008 as amended
H302 - Harmful if swallowed. Category 4
H315 - Causes skin irritation. Category 2
H319 - Causes serious eye irritation. Category 2
H351 - Suspected of causing cancer. Category 2
H373 - May cause damage to organs (liver, kidney, lung, central nervous system) through prolonged or repeated exposure.

Hazard summary
Physical hazards: Not classified for physical hazards.
Health hazards: Harmful if swallowed. Irritating to eyes and skin. Limited evidence of a carcinogenic effect. Harmful: danger of serious damage to health by prolonged exposure through inhalation.
Environmental hazards: Not classified for hazards to the environment.
Specific hazards: Prolonged exposure may cause chronic effects.
Main symptoms: Symptoms include itching, burning, redness, and tearing of eyes. Itching, redness, burning of skin. Vapours may cause drowsiness and dizziness.

2.2. Label elements
Label according to Regulation (EC) No. 1272/2008 as amended

 Contains: Dichlormethane

 Hazard pictograms

 Signal word Warning

 Hazard statements

 H302 - Harmful if swallowed.
 H315 - Causes skin irritation.
 H319 - Causes serious eye irritation.
 H351 - Suspected of causing cancer.
 H373 - May cause damage to organs (liver, kidney, lung, central nervous system) through prolonged or repeated exposure.

 Precautionary statements

 Prevention

 P201 - Obtain special instructions before use.
 P260 - Do not breathe mist or vapour.
 P280 - Wear protective gloves/eye protection/face protection.

 Response

 P307 + P311 - If exposed: Call a poison center/doctor.

 Storage

 P405 - Store locked up.

 Disposal

 P501 - Dispose of contents/container in accordance with local/regional/national/international regulations.

 Supplemental label information

 None.

 2.3. Other hazards

 Not a PBT or vPvB substance or mixture.

 SECTION 3: Composition/information on ingredients

 3.2. Mixtures

 General information

 Chemical name % CAS-No. / EC No. REACH Registration No. INDEX No. Notes

 Dichlormethane 25-65 75-09-2 - 602-004-00-3

 Classification: DSD: Carc. Cat. 3;R40, Xn;R22-48/20, Xi;R36/38
 CLP: Acute Tox. 4;H302, Skin Irrit. 2;H315, Eye Irrit. 2;H319, Carc. 2;H351, STOT RE 2;H373

 #: This substance has workplace exposure limit(s).

 DSD: Directive 67/548/EEC.

 Composition comments

 The full text for all R- and H-phrases is displayed in section 16. All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

 SECTION 4: First aid measures

 General information

 Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

 4.1. Description of first aid measures

 Inhalation

 Move into fresh air and keep at rest. If not breathing, give artificial respiration or give oxygen by trained personnel. Get medical attention if any discomfort continues.

 Skin contact

 Take off immediately all contaminated clothing. Wash skin thoroughly with soap and water. If irritation develops and persists, get medical attention.

 Eye contact

 Immediately rinse eyes with water. Remove any contact lenses, and continue flushing eyes with running water for at least 15 minutes. Hold eyelids apart to ensure rinsing of the entire surface of the eye and lids with water. Get immediate medical attention.

 Ingestion

 Rinse mouth thoroughly. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Drink a few glasses of water or milk. Get medical attention immediately.

 4.2. Most important symptoms and effects, both acute and delayed

 Symptoms include itching, burning, redness, and tearing of eyes. Itching, redness, burning of skin. Vapours may cause drowsiness and dizziness.

 4.3. Indication of any immediate medical attention and special treatment needed

 Provide general supportive measures and treat symptomatically.
SECTION 5: Firefighting measures

General fire hazards

The product is not flammable.

5.1. Extinguishing media

Suitable extinguishing media

Water spray, foam, dry powder or carbon dioxide.

Unsuitable extinguishing media

Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture

By heating and fire, toxic vapours/gases may be formed. Solvent vapours may form explosive mixtures with air.

5.3. Advice for firefighters

Special protective equipment for firefighters

Self-contained breathing apparatus and full protective clothing must be worn in case of fire. Selection of respiratory protection for firefighting: follow the general fire precautions indicated in the workplace.

Special fire fighting procedures

Cool containers exposed to heat with water spray and remove container, if no risk is involved. Prevent runoff from fire control or dilution from entering streams, sewers or drinking water supply.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

Keep upwind. Ventilate closed spaces before entering them. Avoid inhalation of vapours/spray and contact with skin and eyes. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.

For emergency responders

Keep unnecessary personnel away. Wear protective clothing as described in Section 8 of this safety data sheet.

6.2. Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not discharge into drains, water courses or onto the ground.

6.3. Methods and material for containment and cleaning up

Eliminate all ignition sources. Ventilate the area. Wipe up with absorbent material (e.g. cloth, fleece). Transfer to a container for disposal. Following product recovery, flush area with water.

6.4. Reference to other sections

For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Keep away from sources of ignition - No smoking. Use only outdoors or in a well-ventilated area. Avoid inhalation of vapours/spray and contact with skin and eyes. Wear protective clothing as described in Section 8 of this safety data sheet. Avoid prolonged exposure. Wash contaminated clothing before reuse. Observe good industrial hygiene practices. Avoid release to the environment.

7.2. Conditions for safe storage, including any incompatibilities

Keep container tightly closed in a cool, well-ventilated place. Keep away from heat, spark, open flames and other sources of ignition. Store away from incompatible materials. Store in closed original container at temperatures between 5°C and 25°C.

7.3. Specific end use(s)

Non-Setting and Non-Hardening Gasketing Compound.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

UK. EH40 Workplace Exposure Limits (WELs)

Recommended monitoring procedures

Follow standard monitoring procedures.

Derived no-effect level (DNEL)

Not available.
Predicted no effect concentrations (PNECs)  
Not available.

Exposure guidelines  
UK EH40 WEL: Skin designation  
Dichlormethane (CAS 75-09-2)  
Can be absorbed through the skin.

8.2. Exposure controls  
Appropriate engineering controls  
Provide adequate ventilation. Observe Occupational Exposure Limits and minimise the risk of inhalation of vapours.

Individual protection measures, such as personal protective equipment  
General information  
Personal protective equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.

Eye/face protection  
If eye contact is likely, safety glasses with side shields or chemical type goggles should be worn.

Skin protection  
- Hand protection  
Wear protective gloves. Polyvinyl alcohol gloves are recommended. Be aware that the liquid may penetrate the gloves. Frequent change is advisable. Suitable gloves can be recommended by the glove supplier.

- Other  
Normal work clothing (long sleeved shirts and long pants) is recommended.

Respiratory protection  
In case of inadequate ventilation or risk of inhalation of vapours, use suitable respiratory equipment with gas filter (type A2). If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn.

Thermal hazards  
Not applicable.

Hygiene measures  
Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Environmental exposure controls  
Environmental manager must be informed of all major releases.

SECTION 9: Physical and chemical properties  
9.1. Information on basic physical and chemical properties

Appearance  
Blue thixotropic gel.

Physical state  
Liquid.

Form  
Thixotropic gel.

Colour  
Blue.

Odour  
Sweet.

Odour threshold  
Not available.

pH  
Not applicable.

Melting point/freezing point  
Not available.

Initial boiling point and boiling range  
Not applicable.

Flash point  
Not applicable.

Evaporation rate  
Not applicable.

Flammability (solid, gas)  
Not applicable.

Upper/lower flammability or explosive limits  
Flammability limit - lower (%)  
Not applicable.

Flammability limit - upper (%)  
Not applicable.

Vapour pressure  
47 kPa (20 °C)

Vapour density  
2.93 (Air = 1) (20 °C)

Relative density  
1.32 (20 °C)

Solubility(ies)  
Slightly miscible.

Partition coefficient (n-octanol/water)  
Log Pow: 1.25 - 1.30 (measured)

Auto-ignition temperature  
600 °C (1112 °F)

Decomposition temperature  
Not available.

Viscosity  
Not applicable.

Explosive properties  
Not available.
Oxidizing properties Not available.

9.2. Other information
Explosive limit Not available.
VOC (Weight %) 25 - 65 % (Hylomar Test Method 1.1A Determination of Volatile Matter)

SECTION 10: Stability and reactivity

10.1. Reactivity
The product is stable and non reactive under normal conditions of use, storage and transport.

10.2. Chemical stability
Material is stable under normal conditions.

10.3. Possibility of hazardous reactions
No dangerous reaction known under conditions of normal use.

10.4. Conditions to avoid
Heat, sparks, flames, elevated temperatures.

10.5. Incompatible materials
Strong oxidising agents. Alkali metals.

10.6. Hazardous decomposition products

SECTION 11: Toxicological information

General information
Occupational exposure to the substance or mixture may cause adverse effects.

Information on likely routes of exposure

**Ingestion**
Harmful if swallowed. Ingestion may cause irritation and malaise.

**Inhalation**
Vapours may cause drowsiness and dizziness.

**Skin contact**
Causes skin irritation. May be absorbed through the skin.

**Eye contact**
Causes serious eye irritation.

**Symptoms**
Symptoms include itching, burning, redness, and tearing of eyes. Itching, redness, burning of skin. Vapours may cause drowsiness and dizziness.

11.1. Information on toxicological effects

**Acute toxicity**
Harmful if swallowed.

**Skin corrosion/irritation**
Causes skin irritation.

**Serious eye damage/eye irritation**
Causes serious eye irritation.
Respiratory sensitisation: Not classified.

Skin sensitisation: Not classified.

Germ cell mutagenicity: Positive in vitro, but negative in vivo assays.

Carcinogenicity: Suspected of causing cancer.

**IARC Monographs. Overall Evaluation of Carcinogenicity**

Dichlormethane (CAS 75-09-2): 2B Possibly carcinogenic to humans.

Reproductive toxicity: Not classified.

Specific target organ toxicity - single exposure: Not classified.

Specific target organ toxicity - repeated exposure: May cause damage to organs through prolonged or repeated exposure: Central nervous system. Liver. Kidneys. Lung

Aspiration hazard: Not classified.

Mixture versus substance information: Not available.

Other information: Symptoms may be delayed. Severe overexposure may cause cardiac sensitisation and result in irregular rhythm.

**SECTION 12: Ecological information**

12.1. Toxicity: The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

12.2. Persistence and degradability: The product is not readily biodegradable. BOD: 5 - 25% / 28 days. The product is intrinsically biodegradable. Degradation = 100% / 28 days.

12.3. Bioaccumulative potential: Potential to bioaccumulate is low. BCF (Cyprinus carpio): 6.4 - 40, 42 days at 0.025 ppm. Log Pow: 1.25 - 1.30 (measured).

Partition coefficient n-octanol/water (log Kow):
- Dichlormethane (CAS 75-09-2): Log Pow: 1.25 - 1.30 (measured)

12.4. Mobility in soil: The product is slightly soluble in water.

12.5. Results of PBT and vPvB assessment: Not a PBT or vPvB substance or mixture.

12.6. Other adverse effects: The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

**SECTION 13: Disposal considerations**

13.1. Waste treatment methods:
- Residual waste: Do not discharge into rivers, lakes, mountains, etc. because the product may affect the environment.
- Contaminated packaging: Empty containers should be taken to an approved waste handling site for recycling or disposal.
- EU waste code: The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Disposal methods/information
Do not discharge into drains, water courses or onto the ground. Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Special precautions
Dispose of in accordance with local regulations.

SECTION 14: Transport information

14.5. Environmental hazards

Marine pollutant No

EmS F-A, S-A

14.6. Special precautions for user

Read safety instructions, SDS and emergency procedures before handling.

14.7. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I
Not listed.

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex II
Not listed.

Not listed.

Regulation (EC) No. 689/2008 concerning the export and import of dangerous chemicals, Annex I, part 1 as amended
Not listed.

Regulation (EC) No. 689/2008 concerning the export and import of dangerous chemicals, Annex I, part 2 as amended
Not listed.

Regulation (EC) No. 689/2008 concerning the export and import of dangerous chemicals, Annex I, part 3 as amended
Not listed.

Regulation (EC) No. 689/2008 concerning the export and import of dangerous chemicals, Annex V as amended
Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry

Dichlormethane (CAS 75-09-2)

Regulation (EC) No. 1907/2006, REACH Article 59(1) Candidate List as currently published by ECHA
Not listed.

Authorisations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorisation, as amended
Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended
Dichlormethane (CAS 75-09-2)

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work
Not listed.

Directive 92/85/EEC: on the safety and health of pregnant workers and workers who have recently given birth or are breastfeeding
Dichlormethane (CAS 75-09-2)

Other EU regulations

Directive 96/82/EC (Seveso II) on the control of major-accident hazards involving dangerous substances
Not listed.

Directive 98/24/EC on the protection of the health and safety of workers from the risks related to chemical agents at work
Dichlormethane (CAS 75-09-2)

Directive 94/33/EC on the protection of young people at work
Dichlormethane (CAS 75-09-2)

Other regulations

The product is classified and labelled in accordance with EC directives or respective national laws. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006.

National regulations

Young people under 18 years old are not allowed to work with this product according to the EU Directive 94/33/EC on the protection of young people at work.

15.2. Chemical safety assessment

No Chemical Safety Assessment has been carried out.
SECTION 16: Other information

List of abbreviations
DNEL: Derived No-Effect Level.
PNEC: Predicted No-Effect Concentration.

References
Not available.

Information on evaluation method leading to the classification of mixture
The mixture is classified based on test data for physical hazards. The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available. For details, refer to Sections 9, 11 and 12.

Full text of any statements or R-phrases and H-statements under Sections 2 to 15
R22 Harmful if swallowed.
R36/38 Irritating to eyes and skin.
R40 Limited evidence of a carcinogenic effect.
R48/20 Harmful: danger of serious damage to health by prolonged exposure through inhalation.
H302 Harmful if swallowed.
H315 Causes skin irritation.
H319 Causes serious eye irritation.
H351 Suspected of causing cancer.
H373 May cause damage to organs (<@1>) through prolonged or repeated exposure.

Training information
Follow training instructions when handling this material.

Disclaimer
The information in the sheet was written based on the best knowledge and experience currently available.
